AMUSEMENTS.

Mr. Robert M'Wade appeared at the Theater last night in Rip Van Winkle, supported by the Gilbert Sisters and their company. Though the audience was not large—for there is never a full Monday-night house-yet those present were sufficiently appreciative to enjoy the play, and were entertained throughout the entire performance. Rip Van Winkle, though old, is ever fresh, it seems to us; for in the character of the play the most touching pathos, as well as the tenderest ng, are admirably conceived, and, by the true artist upon the stage, exhibted in a natural and life-like manner. The play is as interesting to-day as it was years ago, and though the three versions, which we have seen upon the stage, are unlike in many respects, yet entially the play is always the same. Its realistic features are happily drawn, and the moral of the play becomes all the more beautiful and fascinating by the introduction of the spirit crew and the scene where "Rip" falls to sleep in the Catskill mountains. The blending

of the real and the unreal in this respect man mind, which found in the legends of the mountains and valleys enough of superstition to give credence, at least to the mysterious tales and weird stories that come from the Goths. The support was generally good and the acting of little Mamie, who had the acting of little Mamie, who had the role of "Little Stenie," was very creditable for one of her years. To pictle Brown; 542, C. E. King; 513, John Carwho attend will be interested by Mr. M'Wade and the company. The orchestra did quite well, but we would suggest the propriety of lower strains in the scenes where it is desirable to hear

Early Crops. EDITORS APPEAL-This will be an unfavorable year for early crops in the great Mississippi valley; unless winds blow from the south or east we will find May to be a tolerable dry month, though we may expect rain between the eighth and fourteenth. Weather favorable for dry up to the fourth of June. The nd is apt to be dry and crops grow slowly, and from the sixth to the tenth of June a few scattering showers will pass throughout all the western States, out unless the wind is from the south or east they will not amount to much. Between the thirteenth and twentieth of June good rains will occur over a great portion of the Mississippi valley country, some sections being entirely missed. Those that receive these rains will welcome them gladly for their crops will need them badly. CHURCH ORPHANS HOME.

Report of the President of the Board of Ludy Managers-A Document Full of Encouragement.

At a meeting of the board of lady managers of the Church Home, held yesterday, the following report to Right Rev. C. T. Quintard was read and apthe flute, rendered their difficult parts proved. Wnile very encouraging, it is report that we hope will have the effect of stimulating the charitably disposed of the Episcopal church to renewed efforts for the noblest charity: MEMPHIS, TENN., } EASTER MONDAY, March 29, 1875.

To the Right Rev. Bishop of the Diocese o

It is with great pleasure that I submit the usual annual report of the operations and present condition of the Church Home. Although it is now the eighth year of its existence-which have been years of toil and difficulty—it is the first year that I have felt the Church Home was on a permanent basis, and it now only remains to be properly nurtured to come one of the most useful church nstitutions in the diocese. My absence from Memphis during a portion of the previous ecclesiastical year constrained me to resign my position as president of the board of lady managers, but being re-elected to the same place at the last annual meeting, I resumed my duties on the first of May last. I found in our treasury two thousand three hundred dollars in cash, besides a fund of four thousand dollars invested in government bonds for our benefit, feeling great solfcitude that this fund should be safely, judiciously and usefully invested, I strongly advocated the purchase of a permanent location for our institution. A favorable opportunity soon occurred, and being authorized by the board of lady managers and the trustees having the government bonds in hand, and with your approval, a pur-chase was made of very eligible property on exceedingly favorable terms. The property embraces seven acres of ensed ground in the suburbs of Memphis, five of which are susceptible of the highest degree of cultivation for garden and other products. A large and commodious brick dwelling, having fourteen rooms, outhouses, etc., situated in a beautiful grove of forest trees fronting the main street. The five acres of arable ground will not only supply the Home abundantly with fruits and vege-tables, but after this year, when we get it under proper cultivation, will prove a source of considerable income to the institution. The purchase price of this property is ten thousand dollars, six thousand dollars of which was paid in

cash, and the balance-say four thousand dollars-to be paid in equal instalments lunning from one to ten years, with six per cent. interest, It is stipulated in the deed that the buildings, together with the two acres of grounds immediately surrounding, shall not be held or made liable for the deferred payments. We elso hold a note for seven hundred dollars with real estate security, which was an investrient so ne time ago for a building fund for the Home. This note, when paid, will be appropriated to the liquidation of so much of the deferred payments above mentioned. The building is not so large as the Canfield gaylum, from which we removed, but we hope in wants or necessities may require at no

report of Dr. Morse, is all that could be wished, which I attribute to the watchful attention of the visiting physician, favored by our healthy location and the facilities for outdoor exercise, which they now enjoy. The Home was under the fostering care of Sister Amelia, of the Sisternood of Saint Mary, for a period of one year up to the thirteenth of October lest, and to her we are much indebted for the efficient manner in which she conducted the internal management of the institution, and it was a source of deep regret to us when she was called from her arduous duties here to another field of labor. She has our warmest thanks for the work she did among us. Her mantle fell upon Mrs. Randolph, who is now in charge of the institution. The children find in her a kind and careful mother, who is eminently qualified in every respect for the position she occupies. Although not belonging to the sisterhood, she has de voted her life to church work, and will not receive any compensation from the | prices. orphan's fund even for her own support. A competent teacher has been employed during the past year to instruct the children, and they are also being trained in domestic duties. We have only one hired assistant in the institution, the duties required for the proper management of the Home being performed by the larger girls, some of whom have been with us since the Home wes established. I herewith submit the reports of the visiting physician, the secretary and the tressurer, from all of which you will derive accurate information of the present condition of the Home. It will be seen that during the past ecclesiastical year we have had the care and maintenance of sixty-five children, and have found and secured eligible homes for thirty two of them. Some have been legally

clothing to sixty-seven destitute widows and children. The present number of inmates at the Church Home is thirty-The treasurer's report shows the amount expended during the past year to be about three thousand dollars, and this includes five hundred dollars for putting our present Home in order, and three hundred dollars for a spring wagon, horse and cart, which are indispensable to us. And considering the necessity of these and other outlays, and the number cared for at the Home, it is but just and reasonable to infer that the institution has been administered on an economical plan. We are not disheart-ened by the small amount of cash (twenty-three dollars and seventy-five cents) as shown on hand at present. We rely upon the success of our daily exertions for the means to carry on our work, and for improving and beautifying our grounds as our means will just ify; and I have an abiding faith that we shall be sustained. In my long experience I have never asked in vain for bread for the orphans. God in his mercy opens the hearts and hands of the peo-

adopted, and others (the larger ones), in

their rew homes, receive compensation

for their services. Besides these, we

have given temporary shelter, food and
